Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-23 and 44-68, the independent claim 1 is claiming for a method of operation for determining the first application provides a function/service to first data stored in the first data set and generating the first data set for the said application, the other independent claim 44 is claiming the same with a storage media and apparatus instead of a method. All these claims are drawn to manipulating data structure, classified in class 707, subclass 101.
 - II. Claims 24-32 and 69-79, the independent claim 24 is claiming for a method for generating a plurality of ranks for first and second operation, and the other of independent claims 69 is claiming the same concept with a storage media and apparatus instead of a method. All these claims are drawn to Generating Database or data structure, classified in class 707, subclass 102.
 - III. Claims 33-40, 41-43, 80-89, and 90-94 the independent claims 33, 41 is claiming for a method of retrieving plurality of data subscription statements, presence criteria and importing data, and the other of independent claims 80 and 90 are claiming the same concept with a

storage media and apparatus instead of a method. All these claims are drawn to query processing, classified in class 707, subclass 3.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant application, each of the respective inventions have a separate utility as in a system not having the others. See MPEP ' 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for any other group, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. A telephone call was made to Mr. Aloysius T.C. AuYeung on April 26, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made and requested to mail the restriction letter.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
